

ACCESSIBILITY RESOURCES

Accessibility Resources ensures equal access to the university's curriculum, programs, and campus for students with disabilities. We facilitate reasonable accommodations, provide support, and collaborate with the greater community to meet students' individual needs.

For student veterans with disabilities, we can help:

- Obtain reasonable accommodations and equal access
- Create strategies for learning based on your unique style, strengths, and limitations
- Find qualified professionals for educational testing or personal concerns

COURAGE CREATES CONFIDENCE

Equal access for student
veterans with disabilities

“ I realized Accessibility Resources was my ultimate ally in success. ”

“As a disabled veteran I was hesitant to undertake such an endeavor. It was an intimidating thought considering my physical and emotional disabilities [...] I realized Accessibility Resources was my ultimate ally in success. I was given every tool I could have possibly needed to excel and then some. They turned my can't into yes you can, and now I find myself on the eve of graduating with my BFA from this prestigious institution [...] Accessibility Resources is only a call away and is at the ready to do whatever it takes to support my success. They had my back when I needed it the most and I will be forever grateful.”

When you meet us

You will discuss your accommodation requests and obtain information about accessing your classes and campus

- When you contact Accessibility Resources, you may schedule a meeting with an Accessibility Representative to discuss your strengths and limitations, and accommodations you'd like to request. You don't have to know everything right away. You may request additional accommodations as needed.

Email, fax, or mail your documentation to Accessibility Resources

- Documentation is the paperwork written by your diagnosing professional that describes your diagnosis, barriers to your access, and recommended accommodations. Provide medical documentation from a VA Hospital, and/or a medical/mental health professional. Send copies of documentation you already have or request copies from your school or provider. Alternatively, have your diagnosing professional fill out the *Disability Verification and Recommended Accommodations* form provided by Accessibility Resources.

What are Accommodations?

By removing or minimizing disability-related barriers, accommodations can create a playing field that's level with students who do not have a disability.

Steps in becoming registered:

- Make an initial appointment with an Accessibility Representative
- Provide medical documentation from a VA hospital and/or medical/mental health professional, supporting your diagnosis
- Attend a registration appointment with an Accessibility Representative

Some common examples of diagnoses:

PTSD	Depression
Anxiety	Acquired Brain Injury
ADHD	Learning Disability
Hearing Loss	Limited Mobility
